J.W. HOUGHTON, M. H. HOUGHTON,

There is nothing pleasanter about the Fair than the succession of surprises as old friends and former acquaintances in the crowd come face to face.

The Catholic ladies of Cincinnati who month, solicit donations, especially from figures. Catholics everywhere, the proceeds to be applied to the payment of Archbishop Purcell's creditors, who live in the city, iation of a brave man. He was a diver

embarrassed and unconventional on the rostrum as if there were no arbitrary ms to which younger orators defer. He is growing bald, and his closely trimmed, but unshaven beard is slightly gray. His tall and somewhat portly figure seemed a little disproportioned to the short sack coat, into whose pockets he frequently thrust his hands; and his full blue eye and good-humored youthful face had little of the gravity and concern of one who has often stood in the heat of conflict, and all his life been knows how to say it forcibly and well, accessories that to the amsteur declaimer are so much.

General Garfield has a wonderful mempolitical history, that with ready mind September next. and fearless directness in making a point, he is thoroughly master of the situation and well equipped for any amount of campaign work. His speech was enthusiastically received, and listtened to as he said "with magnificent attention." He was so logical and truthful that we could not see how any intelligent Democrat could resist his conclu-

Proceedings of the Senatorial

The delegates to the Democratic Senatorial Convention for the 27th and 29th joint district, composed of the counties of Ashland Lorain, Medina and Richland, met in the Opera House at Elyria, O., Thursday, August 21st, 1879, at 11 o'clock a. m., and was called to order by F. S. Reefy, Chairman of the Senatorial Committee, when a temporary organization was effected by the election of Hon. James C. Johnson of Medina as President: and W. H. Gates of Ashland. President; and W. H. Gates of Ashlaud, as Secretary, with R. J. Coffey of the Medina Democrat, and F. S. Reefy of the Elyria Constitution, as assistanta. Upon assuming the duties of the chair, President Johnson addressed the convention in a few well-timed remarks upon the issues of the campaign and closed thanking the Convention for the honor conferred on him. On the motion of Mr. Axtel of Lorsin, N. L. Johnson of Elyria, was made Vice-President, and on the motion of the same gentleman the temporary organization was declared the permanent organization of the commention.

The reports of the several committees President; and W. H. Gates of Ashland, both down with the ague.

The reports of the several committees as read were adopted in their order, af-ter which the convention proceeded to the nomination of two candidates for

Sunators.

F. S. Reefy, of Elyria, placed in nomination the name of D. L. Wadsworth, of Lorain County, and A. R. Campbell, Eq., of Ashland, named Henry L. McCray, of Ashland County. There being no other names suggested, the rules were suspended and the gentlemen named were declared the nominated was accelerated whereauthers. nees by acclamation, whereupon a committee was appointed to wait upon them, informmen of their pomination and request their presence in the Convention. Upon the return of the Committee with the nominees the Convention greeted the candidates with entburiestic application. tion greeted the candidates with entbusiastic applause. The Convention was
then addressed first by Mr. McCray,
next by Mr. Wadsworth, both of whom
spoke eloquently on the various subjects
involved in the present canvass. Speeches were also made by M. May, N. L.
Johnson, Jas. C. Johnson and A. R.
Campbell, Esq., and others. The Convention then adjourned.

At a subsequent meeting of the Senatorial Committee, F. S. Reefy was chosen President and W. T. Alberson, Secretary, for the coming two years.—Ashland Press.

OUR NEW YORK LETTER. Brother Talmage--A Diver's Death.

The gyroscopical Talmage, while absent in the flesh still exercises the spirits of his Brooklyn flock and a vast number of outsiders. His movements have, with more or less reticence, been telegraphed at considerable length by his show-m—business managers in England, and whether true or simply a dexterous advertising dodge, it is now two hundred rallied around the standard bearer. His reception at Oberlin on the evening was less flattering.

It is the universal verdict that the late Republican convention held in this place, was by far the most successful and enthusiastic held for years. The Republicans of Elyria are wide awake politically. They propose to have something like a court house majority next exterous advertising dodge, it is now glishmen with his convoluting arms, legs, hair, ears and jaw that his own people will be left to seek some other attraction. Some who own people will be left to seek some other attraction. Some who profess to know all about it even go so far as to say the thing was cut and dried long age, and that immediately at the close of the trial on "common fame," Talmage and a London theater manager made terms for a three years starring

The current number of Harper's Weekly contains an article on the re-cent doings of the Mutual Life Insur-ance Company of New York, which em-body some remarkable facts and figures. It shows among other things that during 1878 the company paid out to the survivors of its policy holders the enormous sum of three and a half millions of dol-

etary interest of the stock-holders of a corporation standing up to absorb or control the common interest. The measure of that interest has now attained a magnitude in millions, some tweaty-five per cent. greater than all the capital of the banks of the metroptire issue of the national bank currency

The constant increase of this incomparable success is still further accounted for by the reduction of premium rates which the Mutual put in force something like a year ago, and which ena-bles it to give insurance of the most un-

Poverty and the willingness to, run but they will not attempt to pay any by profession, and was employed for the sums of \$500 or over, aiming to relieve munificent sum of \$10, out of which he sums of \$500 or over, aiming to relieve only the most needy.

It is announced that the favorite prims donns, Marie Litta, who sang so chavmingly at the Toledo Sangerfest has been engaged for a concert at the Tabernacle, Cleveland, September 15th; and with such a support as Mrs. Rice Knox of New York, contralto; Signor Taglispietro, baritone; Bischopf, tenor; and Herman Kostdenor of New York, planist; the people may reasonably lock forward to a treat of good music.

General Garfield's personal appearance is a dood deal changed since twenty or even ten years ago. He is as unembarrassed and unconventional on the music sum of \$10, out of which he had to pay his assistants, to attach a cable to an anchor which had been lost in a recent collision in the harbor. A large good behavior or to expel the disorder-ly from the train. A butter refrigerator car attached to the train would also be a valuable addition, so that the affected ones might have the benefit of a "cooler" atmosphere until their fevered brains could convalesced to a condition rendering them fit for the society of the decent.

In one instance Mr. Healy, when requested to stop the vulgar, profane, indeed the case was by no means hopeless, but twas so thought by the bystanders, and no attempts at resuscitation were made. On the contrary, the remains were into the car. The consequence was that Charlie was allowed to course at once extinguished. Since the case was that Charlie was allowed to course at once extinguished. Since the case was that Charlie was allowed to course at once extinguished. Since the case was that charlie was allowed to course at once extinguished. Since the case was that charlie was allowed to course at once extinguished. Since the case was that charlie was allowed to course at once extinguished. Since the case was that charlie was allowed to course at once extinguished. Since the case was that charlie was allowed to course at once extinguished. Since the case was that charlies are care to consequence of case of the case was that charlie course at once extinguished. Since the recent evidence of Professor Van Der Weyde in Court, in the Cox-Hull mur-

COMMUNICATIONS. ROCHESTER.

der case, the uncharitable are beginning to say that the undertakers are killing

more people than even the doctors-surely an unworthy jibe at two deser-

ving classes of citizens.

August 25, 1879. Our citizens were entertained Thursday evening by Leavitt's Swiss Bell dealing with grave problems. But if a Ringers. They drew a large house and speaker has a good deal to say, and the crowd went away well satisfied,

The Baptist people are at work buildhow little do his hearers need the small ing a higher steeple and putting a new coat of paint on their church, which they recently purchased of the United Brethren. The State Baptist Associaory, and such thorough knowledge of tion is to be held in it some time in

A concert was held in the Methodist Church last Sabbath evening. The house was crowded and the exercises G. Stevens is improving the looks of

he town by building a new dwelling SULLIVAN.

Aug. 18th, 1879. We are glad to report that our little town is gradually improving in looks.

Mr. L. Ingrabam is remodeling the house he purchased of Mrs. Coon, and it bids fair to be one of the largest in town. Mrs. Campbell is also building an addition to her house.

Mr. Expressed of the counties.

ELYRIA.

August 18, 1879.

There is a great deal of sickness prevailing in town now among children.

Several deaths have occured, mostly of cholera infantum.

The funeral of Mr. George Adams,

formerly of this place, but late of Chat-tanooga, Tenn., took place yesterday from the M. E. Church.

The Good Templars, and the M. E. Church and Sunday School give their annual excursion and pic-nic at Vermillion

A good many of our citizens are at Lakeside and Chautauqua; and a large number went to Ridgeville yesterday to attend the camp meeting in that place.

Elyria will soon have a colored campmeeting. We were in hopes that the managers would fall in securing grounds, but it appears that they have succeeded. We fail to see any benefits or good fruits to be derived from these gather-

ladder race. Those of our citizens who attended the tournament for the purpose of hearing Ewing speak, prenounce his effort by far the most discouraging and weakest ever known in the county. The enthusiasm would not compare with that of a Greenback convention in one of the jury rooms of our old court house. Out of about 3000 people present, less than jury rooms of our old court house. Out of about 3000 people present, less than two hundred rallied around the standard bearer. His reception at Oberlin on the evening was less flattering.

It is the universal verdict that the late Republican convention held in this

the new court house, and the temporary building for the use of the county officers being constructed in the square is nearly completed. The old court house will be completed. The old court house will be vacated this week, and will be torn down at once. Mr. Richardson, the builder, gave \$100 for it.

The Amherst quarries got up a corner on stone and lost the contract. Hence the terrible "squeal" in that section

For the ENTERPRISE.

The recent excursion run by the C., C., C. & I. R. R., to Niagara Falls on the 7th, is to be considered in many respects a success. A tair day, cool lars, and practically accounts for this weather, and no accidents to delay immense business by thus explaining the train, all tending to make it pleasweather, and no accidents to delay ant for the excursionists.

"For those who only want insurance it may be interesting to learn that the Mutual Life is a compact of individuals all assuring each other, the new comer and the old being on one footing.

There is no question of stock or propri.

room, without respect for the ladies in

Of course Mr. Healy does what he olis, being in the aggregate eightyseven millions of dolars. It is the
largest financial corporation known to
exist, its policies outstanding securing
life insurance equal in amount the entire insurance equal in amount the enpreserve good order, either legal or physical, is too noticeable whenever several rowdies happen to meet on his trains. If sufficient legal power to enforce good order is not given to the po sition Mr. Healy occupies when conducting his trains, then still more codifying is needed for the laws of this State. While if it is physical power that Mr. Healy lacks, then the C., C.

making night hideous to all in the car who were not of his class, when the liquor which he had been drinking took a favorable effect and laid him in the arms of "tired Nature's sweet restorer," whose loving embrace kept him quiet until broad daylight, and after the contents of the lunch basket had been pretty generally examined.

Another indecency committed in general manner, was that of converting every car in the train into a smoker, to a greater or less extent, and in every coach one could find the sweet perfume arising from a collection of from two or three cigars to that many dozen. The ladies and others on board to whom the smoke might be disagreeable, could stand on the platform or make the best of it inside the cars. When a regular smoking car is attached to the train those who must indulge in smoke should be obliged to enter it, and not contaminate the whole obtainable atmosphe of the train with the foul odor of the stinking weed.

These things should be revolutionized. Until this is done, and until better, order is preserved on the train, no excursion can be considered a perfect success, nor a safe place for any lady, unless accompanied either by an escort or a revolver.

ADVERTISING DODGES.

We know of nothing so well calculated to put the reading public out of humor as to begin a very interesting account of some scientific discovery, replete with interest, and just as the reader's mind is thoroughly imbued with the subject, and a gigantic effort being made to grasp it in all its bearings, away goes the author in praise of some patent medicine or new-fangled hair-renewer; for instance, Carboling, which, by the way, is an article of genuine merit, and has really done wonders in the which, by the way, is an article of genuine merit, and has really done wonders in the hair-producing way, as hundreds of certificates from well-known citizens amply testify. It is cleanly, and so penetrating that the disease is reached, and a radical change for the better takes place almost immediately. It contains nothing injurious; is, in fact, a natural hair-restorer, made from petroleum, thoroughly deodorized and delightfully perfumed. It is sold by all dealers in drugs and medicines, at one dollar per bottle.

A WONDERFUL DISCOVERY!

A Deodorized extract of Petroleum The Only Article that Will Restore Hair on Bald Heads.

What the World has been Wanting for Centuries.

The greatest discovery of our day, so far as large portion of humanity is concerned, is CAR-BOLINE, an article prepared from petroleum, and which effects a complete and radical cure in case of baldness, or where the hair, owing to diseases o It is also a speedy restorative, and while its use secures a luxuriant growth of hair, it also brings bac the natural color, and gives the most complete sat-isfaction in the using. The falling out of the hair, the accumulations of dandruff, and the premature change in color are all evidences of a discassed con-dition of the scalp and the glands which nourish the hair. To arrest these causes the article used must possess medical as well as chemical virtues, and the change must begin under the scalp to be of perma nent and lasting benefit. Such an article is CAR BOLINE, and, like many other wonderful discov-eries, it is found to consist of elements almost in

beir natural state. Petroleum oil is the article which is made to work such extraordinary results completely deodorized that it is in proper condition for the toilet. It was in far-off Russia that the offect of petroleum upon the hair was first observed, a Government officer having noticed that a partially bald-headed servant of his, when trimming the lamps, had a habit of wiping his oil-besmeared hands in his scanty locks, and the result was in a few months a much finer head of black, glossy hair than be ever had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the results were as rapid as they were marvelous. The manes and even the tails of horses, which had fallen out, were completely re-stored in a few weeks. These experiments were stored in a few weeks. These experiments were heralded to the world, but the knowledge was practically useless to the prematurely bald and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the skill of one of our chemists has overcome the difficulty, and by a process known only to himself, he has, after very elaborate and costly experiments, succeeded in deodorizing refined petroleum, which renders it susceptible of being handled as daintily as the famous eau de cologne. The experiments with the deodorized liquid on the human hair were attended with the most astonishing results. A few tended with the most astonishing results. A few applications, where the hair was thin and falling gave remarkable tone and vigor to the scalp and hair. Every particle of dandruff disappears on the first or second dressing, and the liquid so searching in its nature, seems to penetrate to the roots at once, and set up a radical change from the start. It is well known that the most beautiful colors are made from petroleum, and, by some mysterious operation of nature, the use of this article gradu ally imparts a beautiful light-brown color to the hair which by continued use, deepens to a black The color remains permanent for an indefinite length of time, and the change is so gradual that the most latimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prema-

We advise our readers to give it a trial, feeling satisfied that one application will convince them of its wonderful effects.—Pittsburgh Commercial of Oct. 22, 1877.

its wonderful enects.—Pattaburga Commercial of Oct. 22, 1877.

The article is telling its own story in the hands of thousands who are using it with the most gratifying and encouraging results:

W. H. Britt. & Co., Fifth Avenue Pharmacy, says. "We have soid preparations for the hair for upward of twenty years, but have never had one to sell as well or give such universal satisfaction. We therefore recommend it with considence to our friends and the general public."

Mr. GUSTATUS F. HALL, of the Oates Opera. Troupe, writes: "After six weeks" use 1 am convinced, as are also my comrades, that your 'Carboline' has and is producing a wonderful growth of hair where I had none for years."

C. H. SMITH, of the Jennie Hight Combination. C. H. SMITH, of the Jennie Hight Combination, writes: "After using your 'Carboline' three weeks I am convinced that baid heads can be 're-haired.' It's simply wonderful in my case." B. F. Anthun, chemist, Holyoke, Mass., writes: 'Your 'Carboline' has restored my hair after every-hing else had failed."

thing else had failed."

JORDER E. POND, attorney-at-law, No. Attleboro, Mass., writes: For more than 20 years a portion of my head has been as smooth and free from hair as a billiard ball, but some eight weeks ago I was induced to try your Carboline, and the effect has been simply wonderful. Where no hair has been seen for years there now appears a thick growth, and I am convinced that by continuing its use I shall have as good a head of hair as I ever had. It is growing now nearly as rapidly as hair does after it is cut.

CARBOLINE Is now presented to the public without fear of con-tradiction as the best Restorative and Beautifier of the Hair the world has ever produced.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest case of Chillis and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittents is, that it contains no quinine or mineral, and those who take it are free from danger of quinism or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so unvarying has been its success that it has gained the reputation of being infallible. It can, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South, which, once broken up by it, do not South, which, once broken up by it, do not return until the disease is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neu-ralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earnche, Ca-tarria, Asthma, Palpitation, Splenic Affections, Hysterics, Pain in the Bow-els, Colie, Paralysis, and derangement of the Stomach, all of which become intermittent or periodical, have no speedier remedy that AVER'S AGUE CURE, which cures them all alike and protects the system from future attacks. As a preventive, it is of immense service in those a preventive, it is of immense service in those communities where Fever and Ague prevails, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travellers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it stimulates this organ into healthy activity, and produces many remarkable cures where other medicines
